

ENVIRONMENTAL STUDIES PROGRAM, UCSB

THE FOUR YEAR PLAN – B.A. Major!

Revised 8/15/17

This worksheet is designed to assist an Environmental Studies (ES) student with course scheduling and allow for orderly progression through all graduation requirements within a four year period. On the reverse side is a possible plan to complete the B.A. major requirements for the ES degree. You must add in courses to fulfill GE and University requirements not satisfied by the major and the plan assumes you will earn satisfactory grades in all courses taken. **This is not the only acceptable approach**, but an example of one that works. As much as possible, we have placed courses in quarters in which they are normally offered. However, due to the constantly changing schedules of our faculty, variation of course offerings may occur. Therefore, you may want to consult an ES academic advisor to determine if adjustments are necessary!

In addition to fulfilling ES major requirements (review the B.A. major requirement worksheet), you must also satisfy UCSB's Unit, University, and General Education (GE) requirements. For your convenience, these requirements are summarized below. They are explained in more detail within the *UCSB General Catalog* and the *Letters and Science Academic Requirements (LASAR)* booklet. You may wish to consult the College of Letters and Science advising staff if you have questions regarding requirements outside the major, or visit their website at: <http://www.duels.ucsb.edu/advising>

UNITS: The minimum number of units required to graduate is 180, of which 162 must come from the Letters and Science (L&S) list of courses and 60 L&S-listed units must be upper-division. Students who fulfill the foreign language requirement with UCSB course work must add 4 overall L&S-listed units, for total of 184 and 166.

UNIVERSITY REQUIREMENTS: Satisfy four university requirements: 1) Entry Level Writing Requirement (by exam or by grade of at least C in UCSB's Writing 1); 2) American History and Institutions (by exam or one course from approved list); 3) Academic residence; 4) Scholarship (2.0 minimum UC GPA overall, in the major, and upper-division major).

GENERAL EDUCATION (GE) REQUIREMENTS: GE requirements for the B.A. include 15-18 courses to satisfy General Subject Areas (A through G) and five Special Subject Areas: one quantitative relationships [#], one world culture [+], one ethnicity [&], one European traditions [^], and six writing courses [*]. Courses may be applied simultaneously to both GE Areas and Special Subject requirements, **as well as simultaneously towards your ES major requirements.**

SUGGESTED 4 YEAR SCHEDULE FOR ES MAJORS – BACHELOR OF ARTS (B.A.)

The table below serves as a scheduling aid to help plan your academic program. While it is not mandatory you follow this schedule, it is designed to help you satisfy your degree requirements within 4 years. **NOTE:** This schedule accounts for your ES Degree Requirements only! You need to use the remaining empty blocks to satisfy your remaining GE/University requirements. The table uses ES major requirements for **academic year 2017-18** and assumes all ES elective and outside concentration courses you take are 4 units! Questions: Contact an ES Peer Advisor, Academic Advisor, or a College of L&S Advisor.

Summary of units: 119 to 128 total units must be devoted to the major requirements, including 61 of which are Upper-division units: 13 ES Required, 28 ES Elective, 20 units in the Outside Concentration.
